

# **RFC Production Center**

## **IETF 121**

# Tools Modernization in 2024

In progress

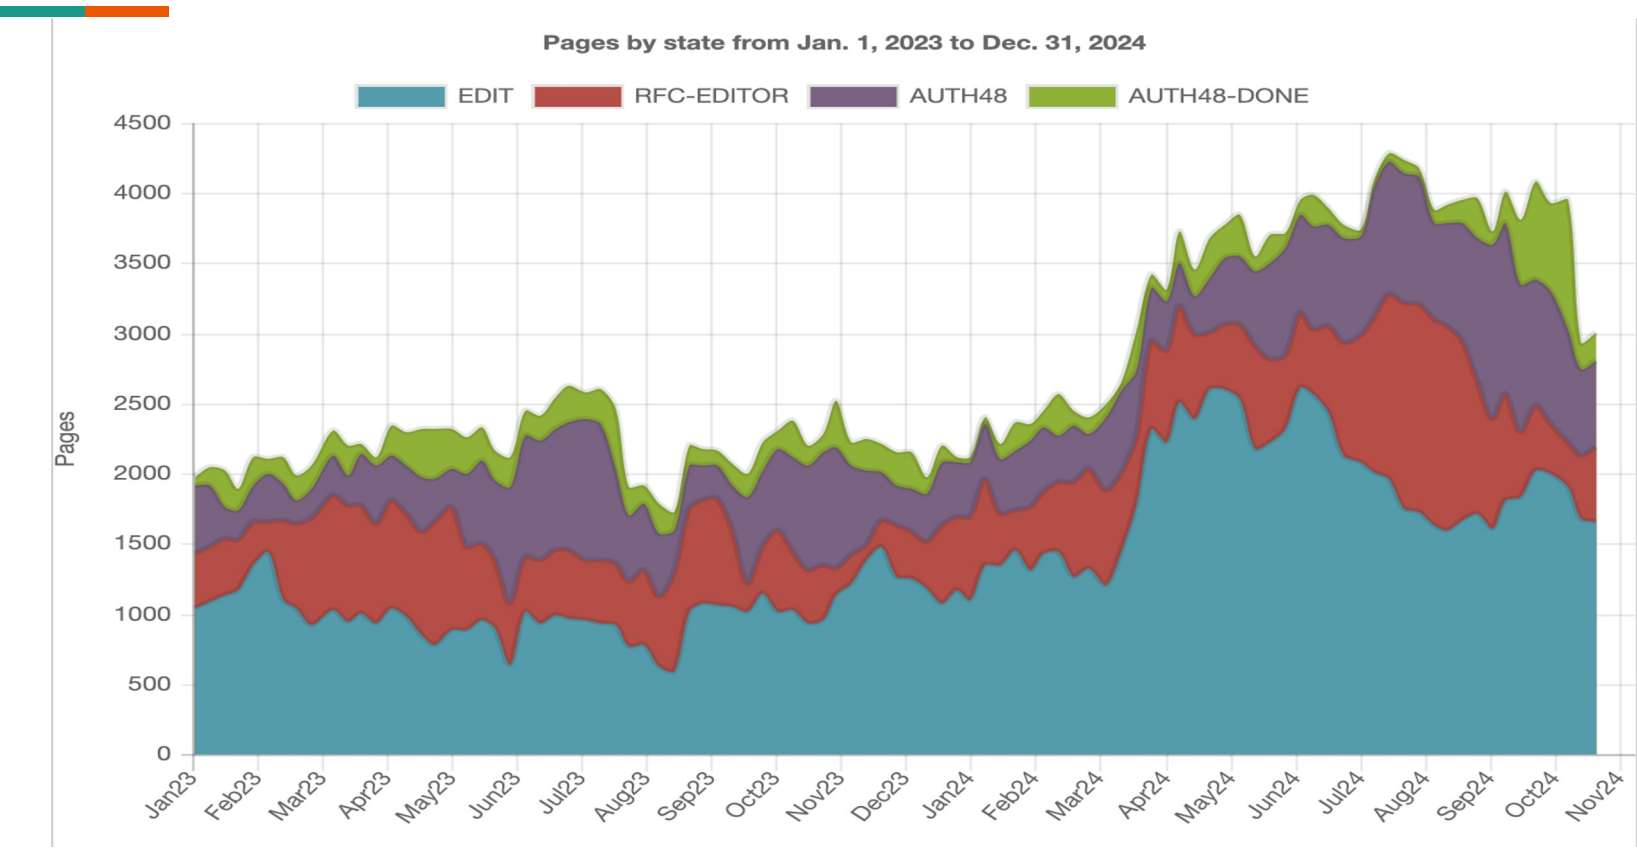

- The IETF Tools Team is building the following for the RPC as part of the tool modernization effort:
  - a document management system using datatracker technology
  - modern editing software with built-in checkers, XML validation, and GitHub integration

## Other RPC Projects

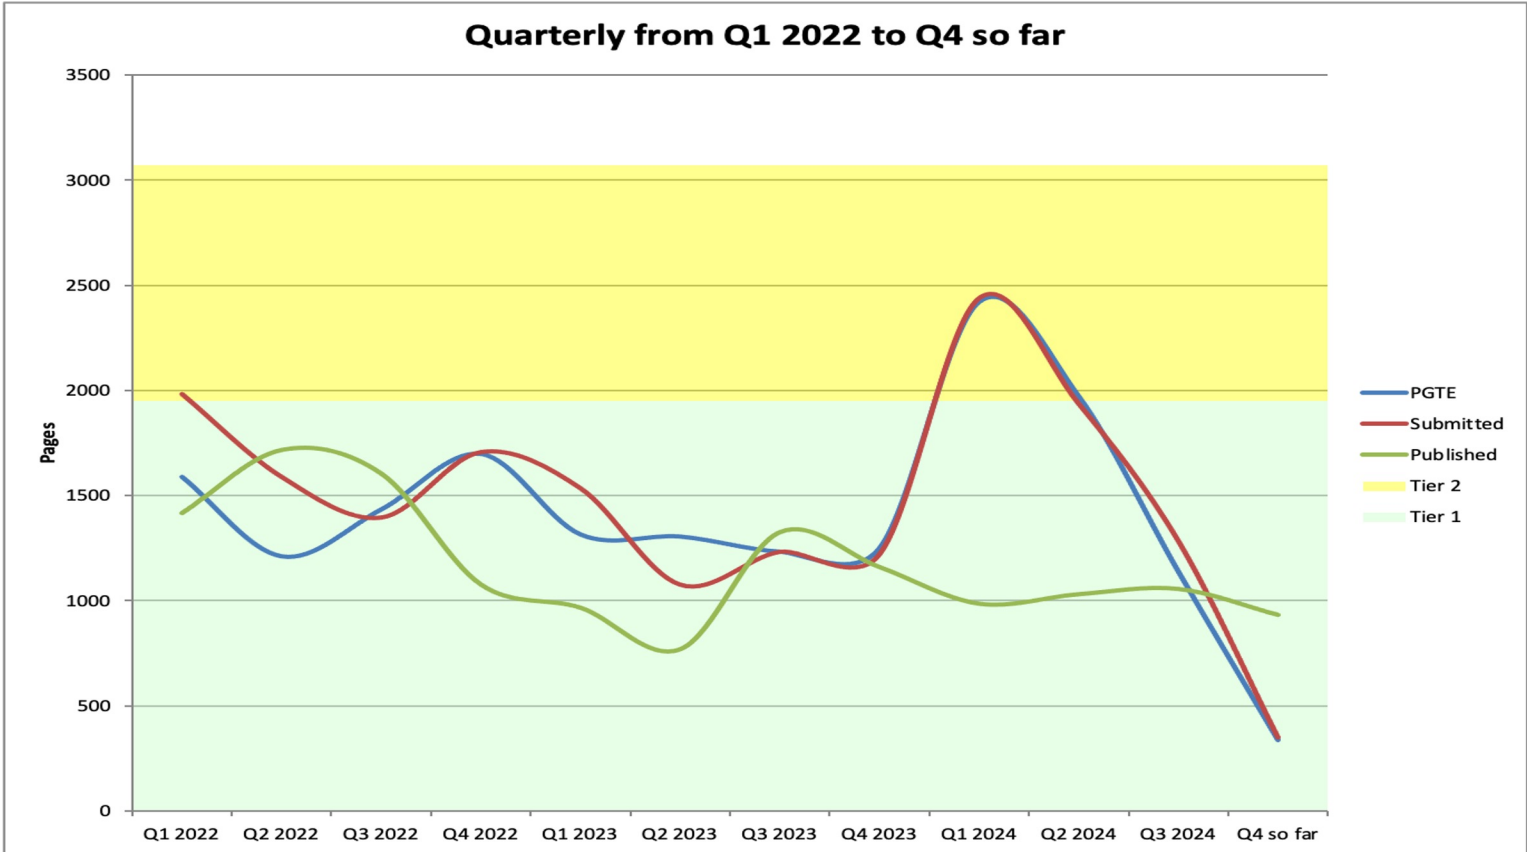

---

- Evolving process to meet needs of the RPC editors and RFC authors
- Ongoing testing and experimentation with GitHub
- Training and experimentation with editing in kramdown-rfc
- Working with the RSCE to bring new work to RSWG (e.g., supporting MathML)
- Documenting future errata system requirements
- Improving reference guidance
- Making updates to 7322bis (RFC Style Guide) and keeping the I-D active
- Moving general author content to [authors.ietf.org](https://authors.ietf.org)
