- RFC Editor Website Additions
 - RFC Style Guide (first draft)
 - Includes relevant portions of rfc2223bis
 - Many details resulting from discussions with authors and ADs
 - Abbreviations list
 - Terms list
 - See: <http://www.rfc-editor.org/howtopub.html>

- Created Errata Process Proposal
 - Will submit as an I-D after IETF 69
 - Working with programmer to design an errata portal
- Continued use of xml2rfc
 - AUTH48 processing of 59+ XML documents
 - Final page formatting still requires conversion to NROFF at last stage.
- Drafted RFC Editor Procedures Manual

- As of 1 January 2007, Aaron Falk left the RFC Editor group at ISI, because of other commitments and duties.
- The RFC Editor **thanks** Aaron for his many contributions to our work as technical publisher for the IETF.

- ❑ Web site: <http://www.rfc-editor.org/>
- ❑ Interest list: rfc-interest@rfc-editor.org
 - This list was created to facilitate community discussion on the RFC series and to make suggestions about RFC Editor functions. The RFC Editor hopes that this mailing list will provide a focal point for input, information, and discussion about the details of the RFC process, as well as an archive to avoid the continual re-hashing of some issues. Topics appropriate to this list may include formatting, tools, style, content, and indexing aspects of the RFC series. It will not be used for discussion of the IETF standards process, general IETF organizational issues, or issues for which the NOTE WELL admonition is needed for IPR reasons. The posting policy is subscriber-only to reduce spam. It will initially be unmoderated, but the RFC Editor will cut off any discussions that are inappropriate according to the guidelines above.
